Subject: Counseling and academic support to Students for Board Examinations 2021.

As the students of classes X & XII will be coming to school almost after ten months, they must have been in stress and strain especially for their board examination. Some of them may not have been able to avail the facility of online classes due to unavoidable reasons. Hence, such students would be in great stress and anxiety for their exams. To get them out of such apprehension for covering of syllabus and for better preparation of the forthcoming Board Examination, the Heads of School and the teachers have planned to take the following steps for better utilization of time, prior to commencement of Board Examination 2021:

1. School have a clear cut Plan of Action for overall revision of the entire (reduced) syllabus.
2. CBSE has reduced the syllabus by about 30%. Students should be clearly informed about deleted portions of syllabus
3. CBSE has modified the design of question paper in almost all the subjects. The current design of question paper must be discussed in the class.
4. Analytical Paragraph writing has been introduced in class X English subject by CBSE in Board Examinations 2021 for the first time. Practice should be given to the students accordingly.
5. Revision should be started from first topic/chapter and after completing the topic, a unit test must be conducted on the pattern of questions of examination.
6. Everyday written practice to be given in the form of assignments/topics wise test.
7. Unit Tests will be scheduled everyday for one subject per day after revising the chapter. These assessments will be used as a part of Multiple Assessment.
8. A comprehensive record of these assignments/unit test should be kept in school and the student's progress must be monitored and guidance be given accordingly.
9. Practice papers uploaded cbse the link 'Academics & Examinations' must be practiced thoroughly and follow up to be done with need based support to students. Distribute the copy of sample paper to the student subject wise.
10. Special Extra Class/Remedial Classes will be done in Mission Mode and be organized as per the subject specific need of the students. In the beginning, these classes may be started for students who had been promoted from class IX & XI with grace marks and those promoted on the basis of projects/assignments. Further, students if required may be added or subtracted based on the progress.
11. Question wise/Item wise Analysis will be done by the teachers in the format already provided while checking of Unit Tests/Mid Term Test/Pre-Board Exams of each student. This analysis will be used as base for identification of subject wise (topics/units) which need more support.
12. Identify topic specific deficiencies and take individual remedial steps by hand holding each student as per his/her level.
13. Syllabus of most of the subjects of class XII either has been completed or will be completed within a fortnight. In some subjects like Biology, Chemistry, Maths, Accountancy and Business Studies where significant amount of syllabus is still left, the Head of school is advised to complete the syllabus of these subjects in the classroom teaching before the Pre Board Examinations timely.
14. **School is organizing a webinar for the Student's counseling (Counselor Dr. Smita Srivastava (MBBS, DNB-Psychiatry))**

Topic: How to be Stress free for upcoming board examinations.

Date: 30.01.2021

Day: Saturday

Time: 9:00am – 10:00am

NOTE: Attendance is compulsory.

DATES FOR THE REOPENING OF SCHOOL WILL BE ANNOUNCED VERY SOON.
